**The Cabinet Office Website**

- Top page:
  [http://www.cao.go.jp/index-e.html](http://www.cao.go.jp/index-e.html)
- List of designated policies:

Overview

The Cabinet Office’s Role in the Cabinet

The Cabinet Office
Policy planning and comprehensive policy coordination on crucial and specific issues in the Cabinet
- Economic and Fiscal Policy, Science and Technology Policy, Disaster Management, Okinawa and Northern Territories Affairs, Measures for Declining Birthrate etc.
- Policies appropriate for the direct control of the Prime Minister
- Decoration, Public Relations, Records and Archives Management etc.

Cabinet Secretariat
Headquarter overseeing governmental grand strategy

Reconstruction Agency
Policy planning, coordination and execution of the reconstruction process following the March 11, 2011 Great East Japan Earthquake

Unique Functions

Ministers of State for Special Missions
“Ministers of State for Special Missions,” ordered to provide strong and prompt policy planning and comprehensive policy coordination on crucial issues in the Cabinet, are exclusively established in the Cabinet Office.

Important Policy Councils
The Cabinet Office works as "the place of wisdom" that helps the Cabinet and the Prime Minister. The Cabinet Office has five “Important Policy Councils”; the chairman of each council should be either the Prime Minister or the Chief Cabinet Secretary, while members of the councils are designated to ministers in charge of related policies and specialists in the fields.
Outline of Duties

Economic and Fiscal Policy

The Cabinet Office is in charge of economic and fiscal policy that is related to the fundamentals of national management under the strong leadership of the Prime Minister. Under the Minister of State for Economic and Fiscal Policy, the Directors General for Policy Planning support the Prime Minister.

The Council on Economic and Fiscal Policy (CEFP)

The Council on Economic and Fiscal Policy (CEFP) is chaired by the Prime Minister. Its purpose is to facilitate the full exercise of the Prime Minister's leadership and to reflect the opinions of private-sector experts in economic and fiscal policy formation.

2013
January   Restart of the CEFP
          Report of “Basic Principles of FY2013 Budget Formulation”
June      Report of “Basic Policies for Economic and Fiscal Management and Reform”
December  Report of “Basic Principles of FY2014 Budget Formulation”
Director General for Policy Planning (Economic and Fiscal Management)

- To formulate “Economic Measures” and “Economic Outlook and Basic Stance for Economic and Fiscal Policy” in terms of implementing flexible economic and fiscal management according to the economic situation.
- To promote economic policy according to policy issues including overcoming deflation.

Policies Toward Overcoming Deflation

The Abe Administration has implemented the integrated “three-arrows strategy” of aggressive monetary policy, flexible fiscal policy and growth strategy that promotes private investment, to revitalize the economy associated with improvement of employment and income, and to spread the benefits of economic growth widely.

The Three-Arrows Strategy of Abenomics

To overcome deflation and revitalize the economy, the Abe Administration has implemented the integrated “three-arrow strategy” as an unprecedented policy package.

1st Arrow: Aggressive monetary policy
- To dispel the deflation mindset entrenched among businesses and households
- The BOJ aims to achieve the 2% price stability target at the earliest possible time with a time horizon of about 2 years

2nd Arrow: Flexible fiscal policy
- To create effective demand to exit from deflation quickly and certainly
- To focus on policy fields that better contribute to private-demand-led growth

3rd Arrow: Growth strategy that promotes private investment
- To create private demand, placing the economy on steady growth path
- To raise productivity by boosting investment, allowing its fruit (employment and remuneration) to be shared widely

Aggressive Monetary Policy

- In January 2013, under the Joint Statement of the Government and the Bank of Japan (BOJ), the BOJ made a clear commitment for the first time to set the price stability target of 2% and to achieve it at the earliest possible time. To this goal, the BOJ introduced a new phase of monetary easing called “Quantitative and Qualitative Monetary Easing” in April 2013.
Economic Measures

Economic Measures for Realization of Virtuous Cycles (December 5th, 2013, Cabinet decision)

Basic Concept • Financial Size

(Principles)
- Focus is placed on measures that will take effect during the first half of FY2014 in order to moderate rush demand and recoil reduction associated with the planned hike in the consumption tax rate.
- These measures are aimed not only at mitigating the recoil reduction in demand but also at ensuring a rapid return to a solid economic growth path by focusing on the measures that are highly effective in inducing private-sector demand such as consumption and capital investment and promoting innovations, thereby leading to the investment for the future, with a view to enhancing economic growth potential and achieving sustainable economic growth.

</tr>
</tbody>
</table>

Note: Besides the indicated items, increase of tax allocations to local governments (1.2 trillion yen), obligatory assurance of national subsidization for a multiyear construction project (0.3 trillion yen) and fiscal investment and loan programs (0.1 trillion yen) are included in total amount.

Economic Impacts (preliminary estimate)

- Expected impact on real GDP is approximately 1%.
- Impact on job creation is approximately 250 thousand.
- The economic measures for enhancing potential growth, in conjunction with the efforts for realization of virtuous cycles of the economy and one trillion yen-scale taxation measures in the “Economic policy package”, will stimulate business investment and consumption and enhance productivity, leading to economic growth accompanied by higher income and more jobs.

Economic Outlook and Basic Stance for Economic and Fiscal Management

Basic Stance for Economic and Fiscal Management in next fiscal year and economic outlook based on the basic stance as the government's official view is determined by the cabinet decision. In general, “Economic Outlook and Basic Stance for Economic and Fiscal Management” is approved by the Cabinet in the process of budget formulation, and is decided by the Cabinet along with submission of budget draft to the Diet. In the Mid-year, the Cabinet Office releases economic projection based on the latest economic trends.

Real GDP growth rate: 2.6%
Contribution of private demand: (1.0)
Contribution of public demand: (1.0)
Contribution of external demand: (1.0)

Basic Principles of Budget Formulation

As is concerned with the budget formulation by the government, “Basic Principles of Budget Formulation” undergo studies and deliberations by the Council on Economic and Fiscal Policy (CEFP), and then it is decided by the Cabinet in late November-early December.

Government-Labor-Management Meeting for Realizing Virtuous Cycles of the Economy

From September to December 2013, the “Government-Labor-Management Meeting for Realizing Virtuous Cycles of the Economy” was held, to share a common understanding on issues to be dealt with by the business community, the labor community, and the government.

Foreign Direct Investment Promotion

Foreign direct investment into Japan helps improve productivity and create employment through the inflow of expertise in business management, technologies and human resources. The government promotes it by making suitable conditions for investment and living environment and by showing a willingness to welcome the investment.

Participation in International Meetings

### Multilateral Meetings

**Organization for Economic Co-operation and Development (OECD)**

The mission is to promote economic growth, economic development, and trade. At present, the OECD consists of 34 developed countries.

**Asia-Pacific Economic Cooperation (APEC)**

The mission is to promote trade and investment liberalization and economic and technical cooperation. At present, the APEC consists of 21 Asia-Pacific economies.

### Bilateral Consultations

USA, China, Korea, EU, Germany etc.

Boosting mutual understanding of economic situations and macroeconomic policies
Management of Medium- to Long-term Economic and Fiscal Policies

Director General for Economic, Fiscal, and Social Structure

Management of the Medium- to Long-term Economic and Fiscal Policies

- Management of the medium- to long-term economic and fiscal policies, with constantly examining them at the Council on Economic and Fiscal Policy.
- Planning and coordination of policies for volunteering support and PFI promotion.

To achieve both economic revitalization and fiscal consolidation, the government manages the medium- to long-term economic and fiscal policies, with constantly examining them at the Council on Economic and Fiscal Policy. In addition, to make the movement toward recovery achieved by Abenomics more stable and to realize the medium- and long-term development of Japan, the government set up “the Committee for the Japan’s Future” under the Council on Economic and Fiscal Policy and it discussed structural changes surrounding the Japan’s future, such as shrinking in population.

Macroeconomic Targets in the Medium- to Long-term

- In the medium to long term, the government aims to improve the labor productivity beyond 2%, to increase wages to the extent that exceeds the growth of inflation rate, and to expand the employment opportunities.
- Over the coming decade, the government aims to realize nominal GDP growth of roughly 3% and real GDP growth of roughly 2% on average, and to achieve even higher growth in the second half of the 2010s.
- Under such conditions, the nominal gross national income (nominal GNI) is expected to grow by more than 3% over the medium- to long-term.

Fiscal Consolidation Targets

To achieve both economic revitalization and fiscal consolidation, the government aims

1. to halve the primary balance deficit to GDP ratio of the central and local governments by FY2015 from the ratio in FY2010,
2. to achieve a primary surplus by FY2020,
3. and to thereafter steadily reduce the public debt to GDP ratio.

Formulation of “Medium-term Fiscal Plan”

To show the roadmap toward achieving both sustainable economic growth led by private demand and fiscal consolidation, the government formulated “the Basic Framework for Fiscal Consolidation(August 8th, 2013, Approved by the Cabinet) ”, which indicates concrete measures to achieve the fiscal consolidation targets.

Column: Overall consideration of economic conditions and other factors for increasing the rate of consumption tax.

The government held the meeting in which Deputy Prime Minister, State Minister for Economic and Fiscal Policy, Bank of Japan Gov. etc. hear the opinions of a wide variety of experts, at the end of August 2013.
With regard to the economy and public finances, it is important to evaluate policy management and regulatory reforms while looking at prospects over the medium to long term in an integrated and consistent manner, using quantitative analysis and estimates. As shown in the “Medium-term Fiscal Plan,” the government will review progress toward the fiscal target, taking into account the economic and fiscal outlook.

“Economic and Fiscal View for Realization of Virtuous Cycles” (Jan 21, 2014 Cabinet Report) and “Economic and Fiscal Projections for Medium to Long Term Analysis” (Jan 20, 2014 Cabinet Office) have been published most recently.

Volunteering Support Policy

Specified Nonprofit Corporations System

For these 15 years after the formulation of the Act to Promote Specified Nonprofit Activities (SNA Act), more than 48,000 Specified Nonprofit Corporations (SNCs) have been established. In addition, the number of certified SNCs with preferential tax treatment exceeds 500; the role is becoming increasingly important. The government of Japan promotes the activities of the SNC system.

To Promote “A Society of Mutual Assistance”

The government of Japan holds the “Conference of the Society of Mutual Assistance” under Minister of State for Economic and Fiscal Policy, with NPOs and experts. In addition, the government of Japan held “the Symposium for the Society of Mutual Assistance” on January 14th, 2014. The government of Japan promotes the intermediate supporting group and the regional cooperation system to support NPOs and social enterprises.

SNCs...Specified Nonprofit Corporations are authenticated by the government agency with jurisdiction (prefectural government or designated city) based on SNA Act.
Certified SNCs...SNCs with appropriate organizational structure that are engaged in appropriate activities contributing to the advancement of public welfare are eligible for certification by the government agency with jurisdiction. Certified SNCs are eligible for preferential tax treatment on inhabitants tax.
The Promotion of PFI (Private Finance Initiative)

PFI Promotion Office supports PFI projects by delegation of PFI specialists to the local governments, supports to formulate PFI projects, etc.

The Japanese government decided to promote PPP (Public Private Partnership)/PFI projects totaling 12 trillion yen over the next 10 years according to "Action Plan Toward Fundamental Reform of PPP/PFI" approved in June 2013.

The Private Finance Initiative Promotion Corporation of Japan established in October 2013 aims to boost private investment and to contribute to strengthening growth force by providing financial supports for PFI projects which collect user fees from users etc.

【Scheme of Private Finance Initiative Promotion Corporation of Japan】
Assessment of the Current State of Economy and Analysis of Economic and Fiscal Policies

Director General for Economic Assessment and Policy Analysis

Overall Assessment of the State of Japanese Economy

**Monthly Economic Report**

This is a monthly report to show the government’s assessment of the state of the economies by analyzing the trends of Japanese and overseas economies. This report is announced in “Ministerial Conference on Monthly Economic Report” which Ministers, including the Prime Minister, attend.

Analysis of the Japanese Economy and Public Finance

**Annual Report on the Japanese Economy and Public Finance**

This is annually published to analyze the overall trend of the economy and public finance of our country. This report is announced in a cabinet meeting.

- **Comparison with past recovery phases (Breakdowns of demand)**
  - The economy has been picking up since early 2013.
  - Compared with the past phases of economic recovery, the current turnaround sees stronger personal consumption and weaker exports.
Analysis of Japanese Regional Economies

**Economy Watchers Survey**
This is the monthly survey that aggregates the business conditions revealed by the “Economy Watchers,” who are expected to be sensitive to business cycles, such as department store clerks, supermarket clerks, taxi drivers, etc.

**Regional Economy Trend**
This is published quarterly to analyze 11 areas of Japanese regions.

**Annual Regional Economy Report**
This is published annually to analyze the overall trend of Japanese regional economies.

---

**World Economic Trends**

This report is published twice a year, to analyze overseas economic trends and economic policies.

○GDP per Capita and Growth Rate
(Real economic growth, %)

- China (2011) $7,800
- South Korea
- Countries with decelerated growth (Asia)
- Growth decelerated owing to the middle income trap
- Countries with decelerated growth (Latin America)

Avoided the middle income trap and achieved stable growth

- Singapore
- Hong Kong
- USA
- Japan

Although China has maintained high economic growth, there are concerns that China will fall into the middle income trap.

Promotion of Science, Technology and Innovation to Build a Society in Which People Can Realize Vitality and Reassurance

Director General for Science, Technology and Innovation Policy

Roles of the Council for Science and Technology Policy

What is CSTP?

Under the leadership of the Prime Minister and the Minister of State for S&T Policy, the Council serves as the headquarters for the promotion of S&T policy, formulates comprehensive and basic policies, and conducts their overall coordination.

Prime Minister

CSTP

- Chairperson: Prime Minister
- Cabinet Members:
  Chief Cabinet Secretary, Minister of State for Science and Technology Policy, Minister of Internal Affairs and Communications, Minister of Finance, Minister of Education, Culture, Sports, Science and Technology, Minister of Economy, Trade and Industry
- Executive Members:
  Seven Executive Members appointed from academia and industry with the approval of the Diet.
- Head of Affiliated Organization: President of Science Council of Japan

Bureau for Science, Technology and Innovation Policy

Formulation of comprehensive and basic S&T policy and implementation of overall coordination at a level above individual ministries and agencies
Promotion of Comprehensive Strategy on Science, Technology and Innovation

Formulation of Comprehensive Strategy on Science, Technology and Innovation

Expectations placed on science, technology and innovation toward resolution of difficult issues
Japan's economic and social environment has turned dire, and a sense of stagnation and uncertainty about the future is gradually spreading.

Global environmental issues, energy issues
Preparation against disasters etc.

Contribution to economic growth
Improvement in the convenience and quality of life

Falling Japan's international competitiveness rankings on innovation
Japan’s international competitiveness rankings on innovations have been falling every year.

Source: WIPO “Global Innovation”

Science, technology and innovation to develop new growth fields are at the heart of the Growth Strategy of Japan.

Japan formulated "Comprehensive Strategy on Science, Technology and Innovation" in June 2013 and has been propelling its activities toward establishing "the most innovation-friendly country in the world" to win in the "era of 'intelligence' mega-competition." States of the nation to be attained in 2030 provided in the Comprehensive Strategy on Science, Technology and Innovation

Economy that maintains world-class economic strength and develops sustainably
Society in which the people can enjoy wellness, security and safety
Economic society that harmonizes with the world and contributes to the progress of humankind

Five Issues Set as “Focused Policy Challenges” and Creation of an Environment That Facilitates Science, Technology and Innovation

Issues that science, technology and innovation should address
Japan will address 5 issues set as “focused policy challenges” to strongly promote Japan's economic revitalization, which is the most urgent issue.

Creation of an environment that facilitates science, technology and innovation
To establish the basis for innovation creation, Japan will address 3 issues, namely, nurturing the sprouts of innovations, activating the innovation system, and fructifying innovations.

Five grand challenges to be addressed to promote economic revitalization

I. Realization of a clean and economical energy system
II. Realization of a healthy and active aging society as a top-runner in the world
III. Development of next generation infrastructures as a top-runner in the world
IV. Regional revitalization taking advantage of the regional resources
V. Early recovery and revitalization from the Great East Japan Earthquake

Three issues to be addressed to create an environment for facilitating science, technology and innovation

Nurturing the sprouts of innovations
- Diverse human resources
- Rebuilding of competitive funds

Fructifying innovations
- Activating of ventures
- Promoting regulatory reform
- Strategies for international standardization and intellectual property

Activating the innovation system
- Industry-Academia-Government collaboration
- Promoting mobility of human resources
- Improving research support system

Cycle for generating innovation
Strategic Development of International Activities

- In close cooperation with relevant ministries, the Cabinet Office promotes “Science and Technology Diplomacy” to facilitate international scientific cooperation through joint research or human exchange in parallel with improving international relations.
- The Cabinet Office hosts the "Science and Technology Ministers Roundtable Meeting", chaired by Minister of State for Science and Technology Policy, which was launched in 2004 to exchange the latest views on science, technology and innovation policy.

Disaster Management: Protecting Citizens from Disasters

Director General for Disaster Management

Japan and Natural Disasters

- A wide range of natural disasters occurs across Japan due to severe natural conditions.

- It is critical to protect citizens’ lives, safety, and property from natural disasters.

- By implementing prevention and initial response drills, as well as recovery and reconstruction measures against disasters in close cooperation with related governmental agencies, resilience to disasters is promoted.

Central Disaster Management Council

Roles to be played by the Council:

- To formulate and promote the implementation of the Basic Disaster Management Plan and Earthquake Plans

- To deliberate important issues on disaster management according to requests from the Prime Minister or Minister of State for Disaster Management (basic disaster management policies, overall coordination of disaster countermeasures and declaration of state of disaster emergency)

- To offer opinions regarding disaster management to the Prime Minister and Minister of State for Disaster Management

Organization of the Central Disaster Management Council

(as of April, 2014)

The 33rd meeting of the Central Disaster Management Council
Comprehensive Promotion of Disaster Countermeasures

Fostering International Cooperation in Disaster Reduction

- Based on “the Hyogo Framework for Action,” fostering international cooperation on disaster reduction with a view to contributing to the world by offering Japan’s knowledge and expertise in the field of disaster management
- Leading international discussions toward the third UN World Conference on Disaster Reduction slated to be held in Sendai City in March 2015

UN World Conference on Disaster Reduction

Trilateral Heads of Government Agency Meeting on Disaster Management held with China and the Republic of Korea

Formulation of Master Plans against Earthquakes, Tsunamis, Volcanic Eruptions, Large Floods and Others

- Fostering measures against large earthquakes, including the creation of master plans against Nankai Trough and Tokyo inland earthquakes
- Making evacuation plans for tsunamis, including the creation of tsunami hazard maps
- Implementing a greater number of measures against volcanic eruptions, including the establishment of disaster management councils against volcanic eruptions, the creation of volcanic eruption hazard maps, and the preparation of evacuation plans
- Fostering measures against large floods, including examining evacuation guidance and emergency rescue activities to be conducted in the event of a large flood

Meeting of the director generals held on measures against tornados and windblasts

Human Resource Development and Disaster Management Drills

- Providing training for central and local government officials to train them as disaster management specialists
- Establishing a disaster management system by conducting comprehensive disaster reduction drills and the government’s role-playing simulation exercise on Disaster Reduction Day (September 1st)

Training to develop disaster management specialists

Wide-area medical transportation drill
### Responses to Disasters

- Holding a conference with related governmental agencies on disaster countermeasures, in which participants share information, coordinate and foster various measures
- Dispatching a government investigation team headed by the Minister of State for Disaster Management to assess the situation in devastated areas
- Establishing a Headquarters for Extreme Disaster Management headed by the Prime Minister and composed of all ministers

### Support to Victims

- Providing prefectures with advice on relief activities to be conducted based on the Disaster Relief Act and providing subsidies to cover a portion of their expenses
- Providing subsidies to cover a portion of the prefectures’ support money for disaster victims based on the Act on Support for Livelihood Recovery of Disaster Victims
- Promoting municipal measures, including the creation of a ledger of victims to support victims in an efficient manner

### For details

Policies on Okinawa

Director General for Policy Planning, Okinawa Development and Promotion Bureau, Okinawa General Bureau

Basic Structure of Okinawa-promotion

More than 40 years have passed since Okinawa was returned to Japan on May 15th, 1972. During this period the government has set forth Okinawa Promotion Plans and invested a total of approximately 10 trillion yen, and those plans worked to reduce the gap with the mainland, especially in the area of social infrastructure. Thanks to the efforts of the prefecture and municipal governments, as well as its people, Okinawa has steadily developed.

However, as clearly seen from a prefectural income level only 70 percent of the national average and from the high unemployment rate, socioeconomic conditions in Okinawa are difficult. Along with the reduction of U.S. military bases and facilities, those socioeconomic conditions are important political issues for the Cabinet to address.

Under the strong leadership of the Prime Minister and the Minister of State for Okinawa and Northern Territories Affairs, the Cabinet Office is comprehensively promoting measures for Okinawa, including ongoing deliberations in the Okinawa Policy Council (founded September 1996) and development and promotion polices involving the entire government.

- Okinawa-promotion Budget

Among the efforts undertaken according to the Okinawa Promotion Plan, the Cabinet Office concerns itself primarily with public works. To grasp such works as a whole, to coordinate its completion, and to ensure its progress in accordance with the plan, the Cabinet Office calculates the overall costs for such work and transfers the funds to the various ministries and agencies concerned. This enables the Cabinet Office to efficiently and comprehensively coordinate the plan's implementation.

Measures for Okinawa-promotion

- Promotions of Industries

Based on the plan, the Cabinet Office is undertaking various measures with other relevant ministries, the prefecture, and other local governments for the prefecture's development. Those measures include the further promotion of industries such as tourism, information technology and manufacturing. At the same time, human resources and science and technology to support those industries are being developed.
· Improving Social Infrastructure
Even though the Cabinet Office is improving social infrastructure with other relevant ministries for the prefecture’s development, conditions of social structure in Okinawa remain to be insufficient.

· Okinawa Institute of Science and Technology Graduate University (OIST)
OIST PhD Program commenced in September 2012. The objective of OIST is to contribute to the self-sustaining development of Okinawa and the academic advancement of worldwide science and technology. OIST, located in Onna Village, is aiming for “the best in the world” graduate university in the interdisciplinary field of cutting-edge natural science.

~Expected Effects for Okinawa Promotion~
Development into international center for science and technology
Creation of Intellectual and Industrial Cluster
Human resource development in science and technology and international community development

· Facilitating Utilization of the Former U.S. Bases
To facilitate utilizing the areas, which the U.S. armed forces use now and which will be returned to Japan in the near future, the Cabinet Office holds the council, and talks with the relevant ministries and the local governments. In addition, the Cabinet Office supports the local governments by sending land-use experts and taking a wide variety of measures.

To Overcome the Declining Birth Rate Crisis

In 2012, about 1.04 million babies were born, and the total birth rate was 1.41. That does show a slight increase from the previous low of 1.26, but it is still unclear whether the increase will continue. In this environment, the Cabinet Office works on comprehensive policies to halt the declining birth rate.

Emergency Measures- Promoting through the “Three Arrows”

In June 2013, “Emergency Measures to Overcome the Declining Birthrate Crisis” was approved at “the Council on Measures for Society with Decreasing Birthrate.”

Emergency Measures- Promoting through the “Three Arrows”

- **“Childcare Support”**
  - Smooth enforcement of the “the comprehensive support system for children and child-rearing.”
  - Promotion of “the Plan for Accelerating the Elimination of Childcare Waiting Lists” etc.

- **“Working Style Reform”**
  - Support for making compatible childcare and work
  - Promotion of support for small and medium companies to make compatible childcare and work
  - Promotion of the “appointment of woman” by businesses etc.

- **New**
  - Nationwide support for marriage, pregnancy and child delivery
  - Provision of information and dissemination and enlightenment on pregnancy
  - Strengthening of “postnatal care” etc.
Enforcement of “the Comprehensive Support System for Children and Child-rearing”

The government of Japan established a “headquarters for child and child-rearing” in the Cabinet Office in conjunction with enforcement of “the comprehensive support system for children and child-rearing.” This organization is going to take care of these functions as follows:

① Common payment for center for early childhood education and care, kindergartens, and nurseries
② Integrated counseling and window function

The Cabinet Office aims to create a society that fosters the joys of having children and parenting, and for every child to grow up healthy.

The Headquaters for Child and Child-rearing

The Headquaters for Child and Child-rearing

- To ensure consistency with the Child Welfare Law system and the School Education Law system
- Integrated counseling and window function

To cooperate with the Child Welfare Law system

Ministry of Health, Labour and Welfare (Child Welfare Law system)

Local government, Relevant Operators

To cooperate with the Education law system

Ministry of Education, Culture, Sports, Science and Technology (Education law system)
Suicide Prevention Measures

Evolution of the Number of Suicides
The total number of suicides in Japan continued to exceed 30,000 for 14 consecutive years from 1998 to 2012. The total number of suicides in 2012 fell below 30,000, but this serious situation continues.

Implementation of Suicide Prevention Measures
The Cabinet, on the basis of the Basic Act on Suicide Prevention, has decided "General Principles of Suicide Prevention Policy" (August 28th, 2012) as a guideline for a package of measures against suicide to be promoted by the government.

- Suicide Prevention Week (September 10th to 16th) · Suicide Prevention Month (March), etc.
  
  During the period, the government of Japan set "Unified phone number for mental health consultation" (0570-046-556), accepted various consultations, and publicized the period by posters etc., in cooperation with related organizations across the country.

Poster (Suicide Prevention Month)

- Implementation of the promotion of gatekeeper training

(Left) Gatekeeper Notebook
(Right) DVD for the training of gatekeepers
The slogan: “If someone looks depressed”

Official website:
http://www8.cao.go.jp/jisatsutaisaku/index.html

Gatekeeper
The gatekeeper is the one who notices the people suffering, calls out to them, listens to their story, connects them to support, and watches them.
International Youth Exchange

By exchange of the Japanese youth and the youth from other countries, the International Youth Exchange Program by the Cabinet Office aims to promote mutual understanding and friendship of the youth and to cultivate the youth who are capable of exercising the leadership skills in various fields in the globalizing society.

【The Fiscal Year 2013 International Youth Exchange Program】

• International Youth Development Exchange Program:
  This program consists of the Sending Program and the Invitation Program. The Japanese participating youth visited 3 countries and the invited youth from 6 countries came to Japan.

• Japan-China Youth Friendship Program: To promote bilateral exchange between Japan and China.

• Japan-Korea Youth Friendship Program: To promote bilateral exchange between Japan and Korea.

• Ship for South East Asia Youth Program: To promote friendship and mutual understanding among the youth of the ten ASEAN countries and Japan (visited 4 ASEAN countries by ship).

• Global Leaders Development Program: The participating youth from 8 countries and Japan study and discuss common issues from global perspective. It comprises of onshore, onboard and overseas trainings.

• Young Core Leaders of Civil Society Groups Development Program:
  The Japanese delegates who take active roles in social activities of elderly people, persons with disabilities and youth are sent to foreign countries to develop skills to become young core leaders of civil society groups in Japan.
Promoting Policies for Persons with Disabilities

Framework
The Cabinet Office promotes comprehensive and systematic measures to support the independence and social participation of persons with disabilities.

The new Basic Program for Persons with Disabilities was formulated in September, 2013. Now the Cabinet Office is preparing for the enforcement of The Act on the Promotion of the Elimination of Discrimination on the basis of Disability, which will be enforced in April, 2016.

Basic Act for Persons with Disabilities

Commission on Policy for Persons with Disabilities (CPPD)

The Basic Program for Persons with Disabilities (from FY2013–to FY2017)

Act on the Promotion of the Elimination of Discrimination on the basis of Disability (Enforced in April, 2016)

Measures of Ministries

[Accommodation for persons with disabilities (Example in CPPD)]
Various accommodations, including sign-language interpreters and materials in braille, are needed for persons with disabilities who wish to attend and participate in the meeting.

(Picture at left) Yellow Card- participants, especially persons with intellectual disabilities, use it when they can't understand what is going on in the discussion.

(Picture at right) Woman interprets for the participant who is deaf and blind, by “finger braille.”

Annual Report and Awareness-Raising Activities

(Left) “Annual Report on Government Measures for Persons with Disabilities” is published to show the state of the measures taken for persons with disabilities.

(Right) The Cabinet Office promotes awareness-raising activities mainly in “The Week for Persons with Disabilities” (December 3rd–9th, annually), etc.

Decorations and Medals – Praise the Glory

Decoration Bureau

- Planning and Selecting Recipients for the Biannual Decoration Ceremonies and Other Honors.
- Conducting Studies and Research on the Honors System.

What is the Honors System in Japan?

- Honors, in the form of decorations and medals of honor, are bestowed upon individuals of merit, in recognition of their national or public services, and in honor of their distinguished accomplishments in various areas of society.
- The honors system in Japan was established in the early Meiji period.
- Awarding of honors is one of the constitutional functions of the Emperor, with the advice and approval of the Cabinet.
- Decorations play an important role in keeping international goodwill; they are exchanged mutually when the state or official guests visit Japan.

Recommendation of Candidates for the Biannual Conferment

A recommendation system in which the public can recommend worthy candidates for the Biannual Conferment has been in effect since 2003. This system is for individuals who have made genuine achievements in areas away from the public eye or individuals who have achieved accumulated merits in multiple areas.

【Process】

- One recommender and two approvers are required.
- Applications are accepted throughout the year.
- Individuals of merit in the national and public areas (who have been in duty approximately 20 years); and
  1. Persons over the age of 70; or
  2. Persons over the age of 55 who have exercised diligence in the following areas:
     ① Areas demanding mental and physical toil; or
     ② Areas away from the public eye

(In addition to the above, there is another type of decoration, the Orders of the Precious Crown, which are bestowed only on females, on special occasions such as courtesy conferment on foreigners.)
**Life and Society〜Realization of a Gender-Equal Society〜**

**Gender Equality Bureau**

【A Gender-Equal Society】
- A society in which both women and men shall be given equal opportunities to participate voluntarily in activities in all fields as equal partners in society.
- A society in which both women and men shall be able to enjoy political, economic, social, and cultural benefits equally.
- A society in which both women and men share responsibilities.

### Creation of a Gender-Equal Society

The Basic Act for Gender-Equal Society was promulgated and enacted in June 1999. The Basic Act lays out the five pillars (basic principles) relating to the formation of a gender-equal society. It also clarifies the roles of the public administration (the state and local governments) and citizens, that is, the responsibilities and basic policies.
Promotion of Women’s Active Participation

Women’s active participation is placed at the core of growth strategies, and is necessary to re-birth and revitalize our economy. Hence, the Gender Equality Bureau, with the related ministries, formulates and implements three pillars of policy as follows to promote women’s active participation comprehensively.

In addition, the Gender Equality Bureau implements policy on increasing the share of women in recruitment and promotion of national public employees, expansion of women’s participation in national advisory councils and committees members, etc.

- Granting incentives to companies that strive to support promotion of active participation by women
- Supporting active participation by women according to the life stages of women
- Creating an environment in which both men and women can strike a balance between work and child-rearing
- Implementing three pillars of policy comprehensively
- Decreasing the number of women who quit their jobs due to childbirth or child rearing
- Increasing the share of women in Leadership Positions
Promotion of Work-life Balance

Based upon the Charter for Work-life Balance and the Action Policy for Promoting Work-life Balance, efforts are being made by the public and private sectors working together.

Elimination of All Forms of Violence against Women

The Gender Equality Bureau conducts PR and awareness activities, such as "the Campaign for Eliminating Violence against Women", provision of information to support victims of spousal violence, and investigative research about violence against women, to eradicate violence against women.

Logo of “Change! JPN”; the public movement for promotion of “work-life balance”
It encourages employees to reduce overtime work by changing working habits.
In Japanese, “frog” is pronounced the same as “change”

Symbol for the Elimination of Violence against Women
Purple Ribbon, as a symbol of the Campaign for Eliminating Violence against Women

"Purple Light-up", as an activity of the Campaign for Eliminating Violence against Women in 2013

Poster for the Campaign for Eliminating Violence against Women

It is said that “Purple Ribbon Campaign” was launched by victims of incest or rape in the small town of Hampshire, USA, in 1994. The campaign aims to encourage the victims of violence against women, by wearing purple ribbons. Nowadays the campaign has spread to more than 40 countries.
PR and Awareness Activities

The Gender Equality Bureau conducts “Gender Equality Week” (from June 23\textsuperscript{rd} to 29\textsuperscript{th}, annually), and provides information through its website and other media.

In addition, the Gender Equality Bureau conducts award programs such as “Prime Mister’s Commendation for Efforts Toward the Formation of a Gender Equality Society,” “Women’s Challenge Grand Prize,” and compiles “The White Paper on Gender Equality” (annual).

Communication Between the People and the Government

Public Relations Office

Public Relations and Public Hearing

- **Public Relations**
  - To ask people to understand important government policies, the Public Relations Office conducts strategic public relations activities in cooperation with the Cabinet Secretariat.
  - Based on requests from government ministries, the office provides the information essential for daily life.
  - So as to help the international society understand Japan, the office promotes global communications efficiently.

- **Public Hearing**
  - To contribute to the policy-making process, the office grasps the trend of public opinion through public opinion surveys and hears valuable opinions from monitors on national policy.

### Domestic Public Relations

- Talking directly to people about important policies
- Using a well-known person suitable for appeal targets
- Timely publicity is important as to system revision
- Utilizing the website and SNS, based on the spread of IT

### Public Relations for Areas Affected by the Earthquake

- TV Program for Reconstruction Support; Fukushima Television (2013/7/7)

### Global Communications

- Newspaper Ad under Articles; “Election Campaigning through the Internet” (2013/5)
- “Public Relations Office” website

### Public Opinion Survey

- TV Ad Spot; “Consumer Protection” (2013/9)
- Regular Radio Program (2013/1)

Implementation of Abandoned Chemical Weapons (ACWs) Destruction Projects in China

Abandoned Chemical Weapons Office

- The project is to destroy chemical weapons abandoned in the territory of China by the former Japanese military forces, in accordance with the Chemical Weapons Convention.

Status of Excavation and Recovery of ACWs

Since September 2000, approximately 50,000 ACWs have been excavated and recovered at various locations in China. Besides them, 300,000 to 400,000 ACWs are estimated to be buried in Haerbing, Dunhua City, Jilin Province. In December 2012, the destruction operation of ACWs has started in Shijiazhuang City, Hebei Province.

Support for Returned Abductees and Their Family Members

Office for the Assistance of the Abductees and their Family Members

- Special circumstances of those abducted by North Korea include:
  - Being unable to return to Japan, they had no alternative but to take residence in North Korea.
  - They lost the basis for their lives in Japan, etc.

In view of the above, the office implements comprehensive support measures in cooperation with related ministries and agencies to provide support, among other things, to rebuild a basis for their lives that was lost by abduction, by helping returned abductees to get back on their feet.

The Japanese government has identified 17 individuals who were abducted by North Korea. Among them, 5 individuals have returned to Japan. In addition, there are many Japanese being suspected as abductees among those who are missing. The Japanese government is insisting that all abductees should be returned, irrespective of whether they are officially identified as abductees.

Support for Abductees

- Payment of Benefits for Abductees
- Development of self-reliance support project for abductees (higher municipalities)
  Higher municipalities develop comprehensive support projects on language acquisition and social adjustment.
- Preparation of supportive curriculum (lower municipalities)
  Lower municipalities prepare individual instructions curriculum based on self-reliance support programs.

Counseling on Welfare

- Training for experiencing society
  - Guidance to social adjustment
  - Japanese language education

Projects for fostering contacts with the local people

Public Awareness

Poster
Leafllet

The poster and leaflet insist that abductees shall by all means be returned to Japan.

The Hideyo Noguchi Africa Prize

Hideyo Noguchi Africa Prize Unit

What Is the Prize?

The government of Japan established the Hideyo Noguchi Africa Prize in July 2006 in memory of Dr. Hideyo Noguchi, who devoted himself to medical advancement in Africa and passed away in Ghana. The Prize aims to honor individuals or institutions with outstanding achievements to combat infectious and other diseases in Africa. There are two categories: medical research and medical services.

The awarding ceremony and memorial banquet were held at the Tokyo International Conference on African Development (TICAD), in 2008 and in 2013 in Yokohama respectively.

Nomination Process

- Establishment of the Hideyo Noguchi Africa Prize Committee
- Recommendation of candidates by the Sub-committees of Medical Research and Medical Services
- Meeting of the Prize Committee to select the finalists based on the recommendation by the Sub-committees
- Final decision by Prime Minister based on the recommendation of the Prize Committee
- The awarding ceremony and memorial banquet

Laureates

- Laureates for the first Hideyo Noguchi Africa Prize
  - **Dr. Brian Greenwood (UK)**
    - Medical Research Category
    - Professor of Clinical Tropical Medicine, London School of Hygiene and Tropical Medicine
    - Dr. Greenwood contributed to research and designing of effective strategies to control malaria and other infectious diseases through immunopathology, epidemiology, anthropology and others in Africa for more than 30 years.
  - **Prof. Miriam K. Were (Kenya)**
    - Medical Services Category
    - Chairperson, National AIDS Control Council of Kenya
    - For the past 40 years, Prof. Were dedicated her life to advancing the health and welfare of the African people through a focus on the practicalities of delivering service at a local level.

- Laureates for the second Hideyo Noguchi Africa Prize
  - **Dr. Peter Piot (Belgium)**
    - Medical Research Category
    - Director and Professor of the London School of Hygiene and Tropical Medicine
    - Dr. Piot dedicated his life to research on infectious diseases including Ebola and HIV, and further to implementing the necessary measures in Africa more than 30 years.
  - **Dr. Alex Godwin Coutinho (Uganda)**
    - Medical Services Category
    - Executive Director of the Infectious Disease Institute - Makerere University
    - Dr. Coutinho contributed to designing and creation of prevention and cures on HIV, and dissemination of its prevention and cures in Africa over the past 30 years.

Promoting Public Interest Activities by the Private Sector

Office for the Public Interest Corporation · Public Interest Commission

- Authorizing and Regulating Public Interest Corporations by Law.
- Promoting Public Interest Activities by the Private Sector.

Authorization

- A general corporation wishing to become a public interest corporation shall apply for authorization to the competent administrative agency in charge.
- Then, after the application meets the criteria set forth in the Act on Authorization of Public Interest Corporations, a general corporation shall be authorized as a public interest corporation.

Regulation

- The Commission collects reports from public interest corporations, and makes on-site inspections to the extent necessary for ensuring their proper operations. It recommends, if necessary, the Prime Minister to issue recommendations and orders to a public interest corporation under the law.

Improvement of Nuclear Emergency Preparedness

Office for the Nuclear Emergency Preparedness

➢ To promote nuclear emergency preparedness in normal times by supporting local governments’ plans in the aspects both of software and hardware support.

Promotion of Software Support

1. Support for an improvement of a regional disaster prevention plan
   A manual is offered for local governments to improve a regional disaster prevention plan, which is the basis for local governments’ emergency preparedness, so that the plan reflects updated knowledge precisely.

2. Locally-oriented support by a senior specialist for nuclear emergency preparedness
   Senior specialists for nuclear emergency preparedness are stationed in the vicinity of nuclear facilities. They help to revise a regional disaster prevention plan, to implement disaster prevention drills, and to strengthen mutual partnerships.

3. To raise effectiveness by comprehensive nuclear disaster prevention drills
   The Japanese government holds comprehensive emergency nuclear disaster prevention drills, in which the Japanese government, local governments, nuclear operators, and residents participate. By implementing these drills, it is expected to deepen partnerships, to confirm the effectiveness of the disaster prevention plans, and to improve them.

Pictures of Comprehensive Nuclear Disaster Prevention Drill, 2013
Promotion of Hardware Support

The Japanese government helps local governments to strengthen disaster management systems by sharing costs for the equipment related to disaster prevention such as radiation meters and construction of base facilities, to prepare for emergency situations in zones intensively promoting nuclear emergency response written in the nuclear emergency response guidelines.

To Develop Originality and Self-reliance Among Local Communities

Office for Decentralization Reform

- To promote decentralization reforms to provide quality and efficient public service

The Concept of Decentralization Reform in Japan

**Mission**
- To develop originality and self-reliance of local community
  -- To provide deregulation and devolution for local governments

**Vision**
- Quality and efficient public service
- To foster distinctive features of the locality
- To involve local stakeholders in the communities

**Approach**
- To Build a new decentralization reform promoting system

System for Promoting Decentralization Reform

- **Policy Decisions**
  - Cabinet meeting for Decentralization Reform
    - Chair: Prime Minister
    - Vice Chair: Chief Cabinet Secretary
    - Minister for Decentralization Reform
    - Members: The other Ministers

- **Deliberates and examines measures of decentralization reform**
  - Advisory Council on Decentralization Reform
    - Chairman: Naohiko Jinno, professor emeritus of Tokyo University
  - Special Task forces
    - Employment measures
    - Local traffic
    - Farmland and farm village
Main Efforts and Achievements of the Decentralization Reform

Main efforts in recent years are “devolution of authority from the central government to local governments and from local governments to the municipalities” and “deregulation on local government.”

**Examples**

### Devolution of authority

- **Municipalities that are more familiar to the residents can provide more comprehensive and flexible service**

  Ex. A prefecture transferred passport application acceptance and insurance offices to the municipalities.

  ⇒ - **More Passport Centers** *(4 → 21)* allow *local residents to apply more nearby.*
  - **One-stop procedure** in a municipal office
  - **Speedier issuance** *(6 days → 4 days)*

### Deregulation on local governments

- **Local governments are allowed to legislate by ordinances on their own**

  Ex. A city changed the public housing standards of the fatherless household by a city ordinance, and the household with junior high school students can apply for public housing.

  ⇒ Applicants of young families have increased by 4% and the **quality of support to the parenting generation has improved.**

  Ex. A prefecture loosened standards on the width of sidewalk by a prefecture ordinance *(2m → 1.5m)*

  ⇒ To **enhance pedestrian safety** by expanding safe sidewalks on narrow roads.

  Ex. A prefecture transferred authentication of NPO establishment to the municipalities.

  ⇒ The municipalities **can collaborate with NPOs and support them comprehensively.**

The Forum for Consultations between the Central and Local Governments

The central government and local governments discuss issues concerning local governments in this forum.

**Agenda**

- Decentralization reform, the budget draft of the central government, economic policy packages, the 2020 Tokyo Olympic and Paralympic Games etc.

Focus on supporting region’s core businesses for which difficulty of business revitalization is large.

Support for revitalization planning, creditor coordination, debt purchase investment, loan, credit guarantee, dispatch of experts

Outline of Regional Economy Vitalization Corporation Act

On March 18th, 2013, fundamental reorganization and functional enhancement from “Enterprise Turnaround Initiative Corporation of Japan” to “Regional Economy Vitalization Corporation of Japan” (abbreviated designation: REVIC) were carried out and REVIC started operating.

To vitalize regional economy through the establishment of sound enterprises and securing/creating employment by supporting business revitalization, bearing in mind the “selection and concentration” and “reorganization” of business, as well as supporting new business, business conversion and regional vitalization business.

A. Enterprises aiming at business revitalization

• To select and to concentrate business (incl. smooth exit)
• Business reorganization

B. Enterprises aiming at new business/business conversion

• To establish strong business management
• Correction of excess supply structure

C. Enterprises engaged in regional vitalization business

REVIC (Capital: 23,100 million yen)

(1) Direct revitalization support

- Deadline for support decision: end of March 2018 (5 year extension)
- Support Period: extend to "within 5 years"
- For large corporations, name of supported enterprises, etc. to be made public

(2) To strengthen frontline of regional revival

- Small and Medium-Size Enterprise Rehabilitation Support Co-operative and Regional Financial Institutions: enhance cooperation through means such as dispatch of experts, etc.
  - Business Revitalization Subsidiaries: expert dispatch, capital injection/loan
  - Business Revival Funds: expert dispatch, capital injection

(3) Support of regional vitalization

- Regional Financial Institutions: expert dispatch
- Regional Vitalization Funds: expert dispatch, capital injection

Focus on supporting region’s core businesses for which difficulty of business revitalization is large.

Support for revitalization planning, creditor coordination, debt purchase investment, loan, credit guarantee, dispatch of experts

Region

Small and Medium Enterprises (SMEs) Revitalization and Regional Economy Vitalization
Measures and Support for Regional Revitalization

Office for Promotion of Regional Revitalization

- Promoting the National Strategic Special Zone: a project for reviving the economy of Japan.
- Supporting the voluntary and independent local activities for regional revitalization.

**Promotion of Growth Strategy by a Breakthrough for Bold Regulatory and Institutional Reforms**

- **National Strategic Special Zone**
  - In areas designated by the national government, bold regulatory reforms and other measures will be comprehensively and intensively promoted for projects carried out jointly by the central government, local governments, and the private sector.
  - [Supportive measures]
    - regulatory exceptions
    - tax support
    - fiscal support

**THE CENTRAL AND LOCAL GOVERNMENTS WORKING AS ONE FOR REGIONAL REVITALIZATION**

- Regional revitalization by strengthening urban functions
- Regional revitalization by the introduction of regulatory exceptions
- Measures for other specific policy agenda

**Eco-Model City**

- 13 cities and 7 towns were selected in FY 2008 and FY 2012 respectively as the cities, towns and regions taking on the challenge of pioneering approaches with high-level goals towards realizing a low-carbon society, including the substantial decrease of greenhouse gas emissions.
- [Supportive measures]
  - fiscal support
  - tax support
  - Special local bonds

**Future City**

- 11 cities and regions which are superior in the three areas of environment, society, and economy were selected in FY2011.
- [Supportive measures]
  - action evaluation, publication
  - local support by the well-informed person

To Promote the Strategic Development and Utilization of Space

Office of National Space Policy

Planning Policy of Development and Utilization of Space and the Headquarters for Japanese Space Policy

The Office of National Space Policy, established on July 12th, 2012, shall

- Assist the Strategic Headquarters for Space Policy
  (Chaired by the Prime Minister / Constituted by all ministers of the Cabinet)
- Deal with the following issues by using the function of the Committee on National Space Policy
  - Formulate strategic budget allocation guidelines and make follow-ups on each ministry’s budget request to evaluate their budget request is consistent with the guidelines
  - Draft the Basic Plan for Space Policy
- Develop and operate satellite systems for inter-ministerial use, including Quasi-Zenith Satellite System (QZSS)

Restructure of space relevant ministries and JAXA in July, 2012

Committee on National Space Policy
(Prime Minister and Minister of State for Space Policy)
Japan’s New Basic Plan for Space Policy  (January 25th, 2013)
(Established by Strategic Headquarters for Space Policy, Government of Japan)

Chapter 1. Status of the Basic Plan for Space Policy and new structure to promote the development and use of space

- Five-year plan from JFY 2013 (foreseeing the next 10 years).
- Office of National Space Policy, Cabinet Office is positioned to be a headquarter for Japanese Space Policy. Japan Aerospace Exploration Agency (JAXA) is defined as a core implementing agency to support the development and use of space by the entire government with technology.

Chapter 2. Basic Policy to promote the development and use of space

Concept of prioritization of measures and three priority subjects:
- Secure necessary and sufficient resources for further use of space and ensuring autonomy, and allocate certain size of resources to space science and then also to space exploration and human space activities.
- Place great importance on three subjects: “National Security and Disaster Management”, “Development of Industry” and “Space Science Frontier”, and on maintenance and improvement of scientific and technological capabilities and industrial base at the same time.

Six Basic Pillars for Japan’s development and use of space

- Peaceful use of space
- Improvement of people’s lives
- Development of industry
- Development of human society
- International cooperation
- Preservation of the environment

Chapter 3. Measures that the Government should take comprehensively and systematically for the development and use of space

Four social infrastructures for expanding the use of space and ensuring autonomy
A. Positioning Satellite
B. Remote Sensing
C. Communications Satellite and Broadcast Satellite
D. Space Launching System

Three programs for pursuing the possibility of the development and use of space in the future
E. Space Science and Space Exploration Program
F. Human Space Activity Program
G. Space Solar Power System Program

GPS Satellite positioning services will become more precise and easier to use through the QZSS that was developed in Japan. QZSS will become a four-satellite constellation in 2018, when the satellite positioning service environment will advance dramatically.

Realizing Improvement of the Quality and Efficiency of Public Service

Secretariat of Supervisory Commission for Public-Private and Private-Private Competitive Tenderings

Public Service Reform

- Promoting public service reform by public-private or private-private competitive tenderings for Governmental Ministries or Incorporated Administrative Agencies
  ⇒ Under transparent and fair competition, the best entity in terms of quality and price implements the public service.

Government’s implementation process

- Based on “Public Service Reform Act” (in force from July 2006), the government formulated “Basic Policies for Public Sector Reform (the 10th amendment)” and decided to implement Public-Private or Private-Private Competitive Tenderings for 298 businesses.
- Each ministry lays down "Implementation Guidelines" and gets an approval by the Commission. The Commission deliberates on the “Implementation Guidelines,” in terms of utilizing the inventive idea of the private companies; maintenance and/or improvement of the quality and the reduction of the expense.

Example: Testing Service at a Ministry

- Abolishing all branches after tenderings
- Securing the quality of the service
- Innovation in the public services based on private proposals
  • To Enable care for delayed examinees
- Cost reduction
  • Reduction of approximately 100 million Yen

An evaluation result is reflected to a next Implementation Guideline by PDCA Management Cycle
Ensuring Food Safety Based on Science

Food Safety Commission Secretariat

Risk Analysis for Food Safety in Japan

- Risk analysis is a comprehensive approach to control and reduce risks of any adverse health effects from food-related hazards. Risk analysis consists of three components: risk management, risk assessment and risk communication.
- Relevant ministries and agencies work in close cooperation with each other to ensure food safety based on the concept of risk analysis.

Risk Assessment

- Risk assessment is to evaluate scientifically the risk of food additives, pesticides, microorganisms and other potential hazards relating foods.
- FSC consists of 7 commissioners, over 200 experts and approx. 100 secretariat staff.
- FSC has conducted more than 1,500 risk assessments since its establishment in July 2003.

Risk Communication

- Risk communication is the interactive exchange of information and opinions among risk assessors, risk managers, consumers and other related parties.
- FSC provides information of its risk assessment and engages in risk communication in cooperation with risk management ministries and agencies and local governments.

Food Safety Commission (FSC): 7 Commissioners

12 Expert Committees: over 200 experts (scientist) in total.
- Planning
- Food Additives
- Pesticides
- Veterinary Medicinal Products
- Apparatus and Containers/ Packages
- Chemical and Contaminants
- Microorganisms and Viruses
- Prions
- Natural Toxins and Mycotoxins
- Genetically Modified Foods
- Novel Foods
- Feed, Fertilizers
- Biological Materials
- Novel Foods

Secretariat: 60 officials and 40 others

Surveillance for the Application of the Restriction on Reemployment, etc.
Bridge of Personnel Interchanges with the Government and Private Entities

Reemployment Surveillance Commission (RSC)
- The RSC surveys the application of the restriction on reemployment, etc., as a neutral and specialized organization responsible for ensuring public trust in the fairness of public services.

Restriction on Reemployment, etc.

① Restriction on Request, etc. Regarding Another National Public servant

② Restriction on Job-Seeking of National Public Servants

③ Restriction on Request by Reemployed Official
The CPIGPE, upon separation of officials from service, provides assistance on new employment.

Since 10/2013

1: The CPIGPE contracts with an outplacement consulting firm.
2: National public servants apply for early voluntary retirement system.
3: Ministries notify the CPIGPE of information on applicants for early voluntary retirement system.
4: The national public servant asks for reemployment support.
5: The outplacement consulting firm provides seminars and counseling.
6: The outplacement consulting firm matches the needs of profit-making enterprises, etc. with demands of applicants.
7: The outplacement consulting firm introduces applicants to profit-making enterprises, etc. and finds new jobs for applicants.
8: Profit-making enterprises, etc. register information about job offers.
9: The outplacement consulting firm offers new jobs.
10: The national public servant takes part in seminars and receives counseling.

The CPIGPE assists the smooth human resources exchange between the government and the private sector.

For details (in Japanese only) → The RSC: http://www5.cao.go.jp/kanshi/index.html,
The CPIGPE: http://www8.cao.go.jp/jinzai/index.html
The Consumer Commission is a deliberation council set up in the Cabinet Office based on the Act for the Establishment of Consumer Affairs Agency and the Consumer Commission.

(Scope of Authority)
- To investigate and deliberate autonomously on important matters regarding protection and promotion of consumers' interest, and to submit proposals and other opinions.
- To investigate and to deliberate in response to the consultation from the Prime Minister and other relevant Ministries and Agencies.
- To make recommendations to the Prime Minister if necessary.
- To deliver opinions on specific issues based on the provisions of individual laws.

Since its establishment in September 2009, the Consumer Commission has investigated and deliberated various consumer issues, and has submitted proposals and other opinions to relevant Ministries and Agencies, which has led to the revision of laws and the enforcement of countermeasures in various areas.

Roles of the Consumer Commission

[Diagram showing various roles and interactions between the Prime Minister, Cabinet Office, Consumer Commission, Consumer Affairs Agency, National Consumer Affairs Center of Japan, Ministries and Agencies, and Businesses.]

Proposal: Expression of opinions to the Prime Minister, relevant Ministers or the Commissioner for Consumer Affairs Agency based on the provisions of Paragraph 2 (1) of Article 6, Act for the Establishment of the Consumer Affairs Agency and the Consumer Commission.
Main Investigations and Deliberations in Process (at the End of November, 2013)

- Major Subjects of Proposals
  Vehicle Recalls System, Contract Issues regarding Advance Payment for Pay Nursing Homes, Revitalization and Improvement of Local Consumer Administration, Vicious Apartment Sales Activities, Enhancement of Consumer Safety Administration, House Reforms, Beauty Salons and Medical Cosmetic Services, Public Utilities Cost, Labeling of “Health Food,” Dissemination of Information to Prevent Consumer Accidents, Fraudulent Investment Sales, etc.
  (Proposals : 13 issues, Suggestions : 11 issues, Remarks : 34 issues)

As a general rule, the meetings of the Consumer Commission are open to the public.

Regulatory Reform Is in Progress. We Boldly Fight against “Bedrock” Regulations.

Office for Promotion of Regulatory Reform

- The office is responsible for planning, general coordination, and promotion of regulatory reform. It puts together policy initiatives of regulatory reform through coordination with presiding ministries and agencies.
- The office is in charge of general affairs of the Council for Regulatory Reform. Managing meetings and accepting requests through “Hotline on Regulatory Reform,” it thoroughly supports the Council.

What’s the Regulatory Reform?

To achieve economic growth fit to changing economic circumstances
To ensure safety by more efficient measures
To offer various options to people
To offer opportunities to entrepreneurs full of creativity and motivation
To stabilize and to improve people’s life
To invigorate economic activities

Examples
- Promoting Regenerative medicine
- Reviewing environmental assessment for coal-fired power generation

ESRI conducts theoretical and empirical research to support the formulation and planning of economic and fiscal policy as well as social policy, and is engaged in disseminating its research products and raising public awareness.

ESRI undertakes collaboration projects jointly with economists and issues "Discussion Papers", etc.

The National Accounts provide a systematic picture of Japan’s economic situation. The National Accounts are estimated on the basis of the international standard recommended by the United Nations.

Quarterly Estimates of GDP
This provides the preliminary figures of GDP by quarter on expenditures approach such as consumption, investment, etc.

Annual Report on National Accounts
This is the annual report including flow variables such as production, expenditure, distribution, and stock variables such as assets and liabilities.

Receiving Foreign Dignitaries with Japanese **OMOTENASHI**

**State Guest Houses**

The government-owned Guest Houses, which are to provide foreign dignitaries with Japanese style OMOTENASHI in a safe and comfortable environment.

<table>
<thead>
<tr>
<th>The mission is</th>
</tr>
</thead>
<tbody>
<tr>
<td>➢ To enhance foreign relations through providing a suitable venue as accommodations, place of banquets and other purposes for foreign dignitaries.</td>
</tr>
<tr>
<td>➢ To maintain and to operate buildings and facilities for official uses.</td>
</tr>
</tbody>
</table>

**The State Guest House-Akasaka Palace, Tokyo**

- This building is the sole neo-baroque palace in Japan. It was originally designed as the Crown Prince’s Palace and was built in 1909.
- It has been used as the State Guest House since 1974.
- The palace was designated as a national treasure in 2009. This is the first case as a Meiji Era building.
- The palace served as the venue for G7 Summit Meeting, The ASEAN-Japan Commemorative Summit Meeting and other international conference.

**The Kyoto State Guest House, Kyoto**

- In 2005, another Guest House was built in Kyoto, the internationally famous city for its traditional culture.
- The architectural style of this Guest House is “Sukiya-Zukuri” (style of a tea ceremony arbor) with “Irimoya-Yane” (East Asia style of half-hipped roofs), surrounded by “Tsukiji-Bei” (roofed mud walls)
- This Guest House is also the venue for International Conferences such as Japan-U.S. Summit Meeting, G8 Kyoto Foreign Ministers’ Meeting and others.

The Guest Houses have days of open visits, and this is a good occasion for the public to understand the State Guest Houses and their important functions.

- Open visit to Akasaka Palace in Tokyo and the State Guest House in Kyoto
  - 10 consecutive days in summer
  - Entry in advance needed, subject to final confirmation
- Open visit in the forecourt of Akasaka Palace
  - 3 consecutive days in autumn
  - No reservation required

The Northern Territories (the islands of Habomai, Shikotan, Kunashiri and Etorofu) had never been held by foreign countries, and are inherent territories of Japan that continue to be illegally occupied by Russia.

To solve this issue and to conclude a peace treaty with Russia as soon as possible, Japan has energetically continued negotiations. For supporting the diplomatic negotiation, the Northern Territories Affairs Administration prompts various measures (campaign for the return of the Northern Territories, the four-island non-visa exchange program, assistance for former residents of the islands, etc.).

### Campaign for the Return of the Northern Territories

- Various activities and events to demand the prompt return of the Northern Territories are held throughout Japan
- Gathering signatures to demand the return of the Northern Territories
- National rally to demand the return of the Northern Territories held on Northern Territories Day (February 7th)

### Visits to the Islands

- The four-island non-visa exchange program (Shikotan Island)
- Free visits by Japanese citizen who are former residents of the islands and their families, and visits to graves

Paths to Peace
~History of Japan’s International Peace Cooperation~

International Peace Cooperation Headquarters

- Chief of the International Peace Cooperation Headquarters: the Prime Minister
- Japan has on numerous occasions made personnel and in-kind contributions to the efforts toward international peace mainly led by United Nations.

Outline of the International Peace Cooperation Law

Personnel Contributions
- UN Peacekeeping Operations
  - Japanese Self Defense Forces troops repairing roads

In-Kind Contributions
- International Humanitarian Relief Operations
  - Tents provided to refugee camps through UNHCR
- International Election Observation Operations
  - Japanese referendum observers on duty

Five Principles

1. Agreement on a cease-fire.
2. Consent to the undertaking of UN peacekeeping operations as well as Japan’s participation in such operations.
3. Impartiality.
4. Should any of the requirements in the above-mentioned guideline cease to be satisfied, the International Peace Cooperation Corps shall suspend its assignments. Unless the requirements are satisfied again in a short term, the government of Japan shall withdraw the personnel engaged in International Peace Cooperation Assignments.
5. The use of weapons shall be limited to the minimum necessary to protect the lives of personnel, etc.

The departure ceremony of UNMISS personnel

The departure ceremony of UNMISS personnel was held with attendance of Senior Vice-Minister Nishimura (Dec.2013)
Achievement of Japan’s International Peace Cooperation

Japan so far dispatched International Peace Cooperation Corps to Asia, the Middle East, Europe and Latin America 27 times in total.

Humanitarian Relief Supply Stockpile

To respond quickly to the needs of in-kind contributions, Japan stocks relief supplies in the United Arab Emirates for emergency requests.

- Tent
- Blanket
- Jerry can
- Plastic sheet
- Sleeping mat

For details → http://www.pko.go.jp/pko_e/pko_main_e.html
In 1949, Science Council of Japan was established as an “Extraordinary Organ” under the jurisdiction of the Prime Minister, to represent the country’s scientists both domestically and internationally, as well as to independently discharge its duties.

1. To deliberate on important issues concerning science and to help solve such issues

2. To coordinate scientific studies and to achieve higher efficiency therein

Recommendations to the government and the public
- Provides reports and responses upon requests from the government.
- Provides the government and the public with opinions from a scientific point of view. (e.g., recommendations, requests, statements, reports, etc.)

International activities
- Exchanges with academies of other countries.
- Contributes to international academic organizations.
- Hosts international conferences and symposiums.

Establishment of networks among scientists
- Academic lecture meeting at a Regional Conference
- Organizes Regional Conferences and carries out activities based on local needs.
- Builds cooperative relationships with academic research organizations.
- Promotion of the gender equality in the science community.

Promotion of science literacy
- Hosts academic fora.
- Plans and hosts Science Cafes.

Policy on Corpse Examination

Council for the Policy on Corpse Examination

The Council for the Policy on Corpse Examination was established in the Cabinet Office to promote collaboration among the relevant Ministries to deal with the issues on corpse examination.

Background

An increase in the number of corpses investigated by police:
About 170,000 bodies in 2011, which is 1.4 times larger than that of a decade ago

○ Inadequate structure of police authorities.
○ Insufficient skills of doctors
○ Lack of budget and talent in universities
○ Small autopsy rate and regional disparity

Relevant Ministries need to deal with the issues on corpse examination.

The Act on Promotion of Policy on Corpse Examination, enacted in 2012

Summary of the Act

○ Basic theme of the policy on corpse examination.
○ Need for the Cabinet to enact the Program on the Policy on Corpse Examination.
○ Establishment of the Council in the Cabinet Office.

<Emphasized theme>

- To prepare specialized, nationwide facilities for the investigation of death cause.
- To prepare the bases of education and research.
- To improve staff of police authorities, doctors, and dentists.
- To improve structure of police authorities.
- To improve structure for autopsies.
- To utilize scientific methods for the investigation of death cause.
- To utilize scientific methods for the identification of corpses.
- To utilize information earned from corpse examination and to promote the account of information earned from corpse examination to the bereaved.

The Council for the Policy on Corpse Examination

Head: The Chief Cabinet Secretary
Members: Ministers and experts appointed by the Prime Minister

Responsible for the draft of the Program

Sub-council for the Policy on Corpse Examination
<Assist the preparation of the draft of the Program.>

For details (in Japanese only) → http://www8.cao.go.jp/kyuumei/index.html
Two leaves and sunbeams shining through branches of trees are used as the motif. The former expresses two main functions of the Cabinet Office, and the latter expresses the Cabinet Office, which makes a hope-filled economic society.

"Future," "Intellect," and the "Sky" are expressed by the upper blue leaf. And "Safety," "Peacefulness," and the "Earth" are expressed by the lower green leaf. Furthermore, "Intelligence" of the "Place of wisdom" which opens a new chapter in the national future is expressed by the acute form. And "Kindness," to tackle a theme familiar to people such as "Safety", "Relief" and "Coexistence," is expressed by the soft tone and curves.
